

## What is a general power of attorney in insolvency proceedings?

A general power of attorney authorises Kreditschutzverband von 1870 to act on your behalf in all insolvency cases until further notice. By submitting a general power of attorney, you will not have to sign and send an individual power of attorney for your representation in each insolvency case. This will save you a considerable amount of work, time, and postage fees.

We will exercise the general power of attorney on a case-by-case basis only when you request us to do so. This ensures that you are included in the decision-making process. You will be kept fully informed in writing and can issue directions about voting or place any other particular requests with us at any time.

Our letters usually include recommendations for a specific course of action. If we do not receive any specific or alternative instructions from you, you can be assured that we will follow the recommendation provided. If anything is unclear, please feel free to contact our experts at any time if needed.
